

CLAIMS

What I claim is:

1. A fluid wheel generator comprising:
 - a) A first fluid wheel and generator pair mounted on a first vertical
5 axle for rotation about a vertical axis,
 - b) A second fluid wheel and generator pair mounted on a second
vertical axle for co-rotation with said first fluid wheel and generator pair
about said first vertical axis,
 - c) Said second vertical axle adapted for rotation about said first
10 vertical axle,
 - d) Said first and second fluid wheels mounted for immersion in a
stream of moving fluid,
 - e) Said first and second generators mounted in or above said moving
stream of fluid.
- 15 2. A water wheel generator as claimed in claim 1 wherein each of said
wheels further comprise a central hub and a plurality of paddles for
engaging the said stream of moving fluid.
3. A fluid wheel generator as claimed in claim 2 wherein each of said
paddles is mounted to said central hub for rotation about a paddle vertical
20 axis from a closed to an open and fluid engaging position.
4. A water wheel generator as claimed in claims 1, 2 or 3 wherein
said fluid is water.
5. A water wheel generator as claimed in claim 4 wherein said
generators are both mounted above said moving stream of water.

- 25 6. A wind powered wheel generator as claimed in claims 1, 2 or 3 wherein said fluid is air and said first and second wheel and generator pairs extend generally vertically above said generators.
